

Sundance San Antonio Homeowners' Association, Inc.

Friday, August 1, 2014

Dear Members of Sundance HOA:

Over the past several months the Board of Directors have been vetting other property management companies to replace ProComm. Based on our interviews we have chosen to change management companies. It is with great pleasure we announce to our members that we have chosen to hire Real Manage effective September 1st, 2014 as our new property management company. We ask for your patience during this transition.

Although our new management company will not officially begin until September 1st they have already begun working with ProComm to transition documents and all our other information seamlessly. For the first three months will have an assigned transition manager along with our permanent manager. On or about September 1st you will receive more information containing the property managers contact information and links for additional online services Real manage provides.

Rest assured your questions will be answered and details will come, these are exciting new changes for our community!

Very truly yours,

Sundance Board of Directors
